The air conditioner in my 1998 Ford Explorer gradually did not operate properly. At this time, it is not cooling at all. Today (June 12, 2004), I read about problems with the A/C accumulator. I...

1998 Ford Explorer Equipment: Air Conditioner Problems
Re: 1998 Ford Explorer a/c not working properly. Quick test, check the temperature differential at the evaporator. Easiest way is touch a finger to low and high pressure lines where they attach at the fire wall. High pressure line should be very hot and larger low pressure line should be extremely cold.

1998 Ford Explorer Ac Problems - theplayshed.co.za
Hello, My Ford Explorer has an unusual problem. It will drive fine, however when you turn the AC on it will drive fine for a little while then when you take off from stop, it will rev up and kinda stall between 1st and 2nd gears. Eventually after a while doing that, it will act like the rear end is slipping when taking off.
