the Perform a UPS Runtime Calibration section in this manual for calibration criteria.

Installation and Operation

If you do a manual calibration, you won't need to wait for the UPS to say 100% vs. 99% but you'll need to sit and watch the UPS and make sure you reapply AC power to it when its complete. The software command will discharge the UPS down to 10-20% and charge itself back up with out you sitting there.
