Many arts based researchers combine their art with story, the art part creates moods and images combined with writing which is better at directing emotion. In many cases published words are used more to explain the art rather than enhance the emotional mood, others combine evocative pictures and words. arts based autoethnography can use evocative stories along with evocative images.

the self at the center of cultural analysis. Chang (2008) asserts that autoethnography “transcends mere narration of self to engage in cultural analysis and interpretation” (p. 43).

What is Autoethnography?—

QualPage

Guillemin and Gillam (2004) observe two primary ethical dimensions of autoethnography, the first being procedural ethics involving approval from relevant institutional bodies or committees and the second is ethics in practice or, what could be referred to as, the everyday ethical issues that arise as part of the research. Analytic autoethnography as an approach has five ‘key features’ (Anderson, 2006, p.378) and provides an effective means of investigating the focus of the research ...
