„I recommend the book as it describes requirements engineering from a complementing perspective to IREB. The book focuses on product development and follows an agile approach. The interesting part is that you find IREB body of knowledge elements in many chapters.

~~Service—International Requirements Engineering Board~~

These are general business corporations that on April 15, 1935, and continuously thereafter, have lawfully engaged in the practice of professional engineering in New York State and whose chief executive officer is a licensed professional engineer under the laws of the State of New York (often referred to as “grandfathered” corporations).
