Richie covers the so what of blockchain as opposed to the crowded area of the what of blockchain. In the 1st half readers self-realize that a trust gap is exponentially expanding in commerce, and humans are carrying the unnecessary burden to always trust but verify with intermediaries. Today, we the human species start every company or transaction with the automatic subliminal assumption that counterparties cannot be trusted. In the 2nd half, Richie re-positions blockchain from a paradigm that is looking for a problem, into a paradigm that would help close the trust gap. Blockchain, mankind's first

Set against the cultural and political backdrop of interwar Europe and the Americas, Poetry in Pieces is the first major study of the Peruvian poet César Vallejo (1892–1938) to appear in English in more than thirty years.

Vallejo lived and wrote in two distinct settings—Peru and Paris—which were continually crisscrossed by new developments in aesthetics, politics, and practices of everyday life; his poetry and prose therefore need to be read in connection with modernity in all its forms and spaces. Michelle Clayton combines close readings of Vallejo's writings with cultural, historical, and theoretical analysis, connecting Vallejo—and Latin American poetry—to the broader panorama of international modernism and the avant-garde, and to writers and artists such as Rainer Maria Rilke, James Joyce, Georges Bataille, and Charlie Chaplin. *Pieces* sheds new light on one of the key figures in twentieth-century Latin American literature, while exploring ways of rethinking the parameters of international lyric modernity.

This intellectual portrait of Romain Rolland (1866-1944)--French novelist, musicologist, dramatist, and Nobel prizewinner in 1915--focuses on his experiments with political commitment against the backdrop of European history between the two world wars. Best known as a biographer of Beethoven and for his novel, Jean-Christophe, Rolland was one of those nonconforming writers who perceived a crisis of bourgeois society in Europe before the Great War, and who consciously worked to discredit and reshape that society in the interwar period. Analyzing Rolland's itinerary of engaged stands, David James Fisher clarifies aspects of European cultural history and helps decipher the ambiguities at the heart of all forms of intellectual engagement. Moving from

text to context, Fisher organizes the book around a series of debates--Rolland's public and private collisions over specific committed stands--introducing the reader to the polemical style of French intellectual discourse and offering insight into what it means to be a responsible intellectual. Fisher presents Rolland's private ruminations, extensive research, and reexamination of the function and style of the French man of letters. He observes that Rolland experimented with five styles of commitment: oceanic mysticism linked to progressive, democratic politics; free thinking linked to antiwar dissent; pacifism and, ultimately, Gandhism; antifacism linked to anti-imperialism, antiracism, and all-out political resistance to fascism; and, most controversially, fellow traveling as a

form of socialist humanism and the positive side of antifascism. Fisher views Rolland's engagement historically and critically, showing that engaged intellectuals of that time were neither naive propagandists nor dupes of political parties. David James Fisher makes a case for the committed writer and hopes to re-ignite the debate about commitment. For him, Romain Rolland sums up engagement in a striking, dialectical formula:

A study of the idea of beauty explores the ever-changing concept of beauty from the ancient Greeks to today.

at universities and other research institutions, but they are also based on practical studies developed by Occupational Health & Safety (OHS) practitioners within their companies. As a result, this book will be useful to get acquainted with the state-of-the-art of the research within the aforementioned domains, as well as with some practical tools and approaches that are currently used by OHS professionals worldwide.

This compelling novel follows four women as they learn to balance children, estranged husbands, boyfriends, and problems at work through their faith in God. Michelle, Tonya, Mrs. Judson, and Miz Ida. African-American, white, rich, poor -- they seemingly have nothing in common. Yet every day they face the

complex realities of twenty-first-century urban life as they try to balance their needs with their belief in God. Through the course of a year, these women must come to terms with the past, discover their true identities, and recognize the unexpected miracles that reveal God's all-encompassing love. These four women entertain us and invite us to join in their lives. As they welcome us, they also introduce us to the men in their lives. The men play supporting roles, adding color and zest to the lives of the Cover Girls. Bishop Jakes knows the struggles real women encounter and the losses that make it difficult to face the future. He brings compassionate insight and deep wisdom to this novel and proves that he is not only a gifted preacher, but a born storyteller.
