Multiple dents on one side of a bullet are sometimes suggested as ramrod marks, but no ramrod marks have yet been identified with confidence on Civil War bullets in England, and it may be that the wooden ramrods of the time are not hard enough to leave a mark (Foard 2009, 23). In theory, the marks should be overlapping curved indentations on one side of the ball.

Musket Ball and Small Shot Identification: A Guide traces the history of musket balls and small shot, and explores their uses as lethal projectiles and in nonlethal alterations. Sivilich asks--and answers--a variety of questions to demonstrate how a musket ball found in a military context can help to interpret the site: Was it fired? What did it hit? What type of gun is it associated with? Has it been chewed, and if so, by whom or what? Was it hammered into gaming pieces?

As an iconic symbol of the American GI, the dog tag has gained considerable cultural recognition. This book returns to the origins of the dog tag with an in-depth look at all 49 styles of Civil War era Union identification discs, including detailed photographs and histories for individual discs as well as a general history of the origin and production of identification discs. This work also provides a general guide to the authentication of identification discs for use by collectors.

Between March and October 2011, a coalition of North Atlantic Treaty Organization (NATO) member states and several partner nations waged a war against Muammar Qaddafi's Libyan regime that stemmed and then reversed the tide of Libya's civil war, preventing Qaddafi from crushing the nascent rebel movement seeking to overthrow his dictatorship and going on to enable opposition forces to prevail. The central element of this intervention was a relatively small multinational force's air campaign operating from NATO bases in several countries, as well as from a handful of aircraft carriers and amphibious ships in the Mediterranean Sea. The study details each country's contribution to that air campaign, examining such issues as the limits of airpower and coordination among nations. It also explores whether the Libyan experience offers a potential model for the future.
