With Eiji Akaso, Keita Machida, Ryo Sato, Kôdai Asaka. While still a virgin at the age of 30, Kiyoshi Adachi gains a magical power that allows him to read other people's mind by touching them. Things change when he accidentally touches Yuichi Kurosawa and reads his mind.

A chief legal officer with the CIA who helped create and implement counterterrorist operations after September 11 draws on previously undisclosed stories from his long career to illuminate the agency's inner workings, charting its evolution from a shadowy entity to an organization based on dynamic new laws, scandals and personalities.

From a former top-level insider — whom the Los Angeles Times has called ‘the most influential career lawyer in CIA history’ — comes an unprecedented memoir filled with revelatory stories about the US government’s intelligence program. In 1975, fresh out of law school and working in a mind-numbing job at the US Treasury, John Rizzo took ‘a total shot in the dark’ and sent his résumé to the Central Intelligence Agency. He had no notion that, more than 30 years later, he would become a notorious public figure — both a symbol and a victim of the toxic winds swirling in post-9/11 Washington. From approving the rules that governed waterboarding and other ‘enhanced interrogation techniques’ to serving as the CIA’s spokesperson during the

Iran–Contra scandal, Rizzo witnessed and participated in virtually all of the significant operations of the CIA's modern history. He was the agency's top lawyer in the years after the 9/11 attacks, and oversaw actions that remain the subject of intense debate today. In *Company Man*, Rizzo charts the CIA's evolution over the course of his career, and offers a direct window into the organisation during some of its biggest controversies. In doing so, he has produced the most comprehensive insider account of the CIA ever written — a groundbreaking, timely, and remarkable personal history of American intelligence.

At the intersection of politics, law and national security--from "protect us at all costs" to "what the hell have you guys been up to, anyway?"--A lawyer's life in the CIA. Under seven presidents and 11 different CIA directors, Rizzo rose to become the CIA's most powerful career attorney. Given the agency's dangerous and secret mission, spotting and deterring possible abuses of law, offering guidance and protecting personnel from legal jeopardy was, and remains, no easy task. The author accumulated more than 30 years of war stories, and he tells most of them.

The “revealing” (The New Yorker) insider history of the CIA from a lawyer with a “front-row seat on the hidden world of intelligence” (The Washington Post). Former CIA director George J. Tenet called *Company Man* a “must read.” Over the course of a thirty-four-year (1976-2009) career, John Rizzo served under eleven CIA directors and seven presidents, ultimately becoming a controversial public figure and a symbol and victim of the toxic winds swirling in post-9/11 Washington. String of public controversies. As the agency's top lawyer in the years after the 9/11 attacks, Rizzo oversaw actions that remain the subject of intense debate, including the rules governing waterboarding and other "enhanced interrogation techniques." Rizzo writes about virtually every significant CIA activity and controversy over a tumultuous, thirty-year period. His experiences illuminate our nation's spy bureaucracy, offering a unique primer on how to survive, and flourish, in a high-powered job amid decades of shifting political winds. He also provides the most comprehensive account of critical events, like the "torture tape" fiasco surrounding the interrogation of Al Qaeda suspect Abu Zubaydah, and the birth, growth, and death of the enhanced interrogation program. *Company Man* is the most authoritative insider account of the CIA ever written—a groundbreaking, timely, and remarkably candid history of American intelligence. This is "emphatically a book for anyone who cares about the security of this country" (The Wall Street Journal).

Controversies. Rizzo offers a direct window into the CIA in the years after the 9/11 attacks, when he served as the agency's top lawyer, with oversight of actions that remain the subject of intense debate today. In "Company Man," Rizzo is the first CIA official to ever describe what "black sites" look like from the inside and he provides the most comprehensive account ever written of the "torture tape" fiasco surrounding the interrogation of Al Qaeda suspect Abu Zubaydah and the birth, growth, and death of the enhanced interrogation program. Spanning more than three decades, "Company Man" is the most authoritative insider account of the CIA ever written--a groundbreaking, timely, and remarkably candid history of American intelligence.

The year is 1919. The McNaughton Corporation is the pinnacle of American industry. They built the guns that won the Great War before it even began. They built the airships that tie the world together. And, above all, they built Evesden--a shining metropolis, the best that the world has to offer. But something is rotten at the heart of the city. Deep underground, a trolley car pulls into a station with eleven dead bodies inside. Four minutes before, the victims were seen boarding at the previous station. Eleven men butchered by hand in the blink of an eye. All are dead. And all are union. Now, one man, Cyril Hayes, must fix this. There is a dark secret behind the inventions of McNaughton and with a war brewing between the executives and the workers, the truth must be discovered before the whole city burns. Caught between the union and the company, between the police and the victims, Hayes must uncover the mystery before it kills him.

James S. Kunen—author of *The Strawberry Statement*, an account of the 1968 student uprising at Columbia

University—chronicles his adventures on the road to finding meaning in work and life. He traces his evolution from a rebellious youth who sees working as a kind of death, to a laid-off corporate executive who experiences not working as a kind of death, to a reinvented and reinvigorated individual who discovers something important and meaningful to do. The experience of falling victim to America's recession-ravaged economy (and the people who run it) leads him along a career path far different from anything he had planned. After years of making a living, Kunen finally learns how to make a life. *Diary of a Company Man* will be a revelation not only to baby boomers but to young people trying to figure out what to do with their lives.

1950-68 personal history as Jesuit novice, seminarian, student, teacher, priest: anecdotal, narrative, with scattered commentary.

William Covington, a young black man in a high-profile corporate job, sees his comfortable life begin to fall apart around him when something from his past threatens to ruin everything he has worked for in the business world

The woman at the center of the Bush administration's CIA leak scandal breaks her silence about the case as she describes her role as an undercover CIA operative, her training and experiences, her efforts to protect her children in the aftermath of the leak, her determination to uncover the truth about the event that destroyed her career, and her battle with the CIA to reveal the truth.
