A complete guide to day trading stocks, options, or futures, plus companion workbook This valuable guide is a complete day trading course (with a companion workbook) that walks novice traders through all the day trading opportunities. The Day Trader's Course is packed with basic technical skill, proven winning strategies, and essential background. Lewis Borsellino reveals when to buy and when to sell, and shows readers how to identify when "it's over" for a particular stock, option, or future. Drawing from his considerable experience, he identifies the rules that every trader should follow.

A technical analysis classic, newly updated to help traders develop and forward-test a high-performance trading system for today's markets In trading, a winning system is everything. While it is theoretically possible to buy a "canned" trading system, most experts agree that the best system is proprietary to each trader—developed, implemented, and tested by the individual to suit his or her exact requirements. A stimulating mix of cutting-edge techniques, timeless principles, and practical guidelines, this updated edition of a technical analysis classic offers traders a comprehensive methodology to develop and implement your own trading system, bridging the gap between analysis and execution. Tushar Chande (Pittsburgh, PA) holds nine U.S. patents for creative solutions to flexible manufacturing problems using high-power lasers and optical fibers. A contributing editor to Technical Analysis of Stocks & Commodities magazine, he has been a registered Commodity Trading Advisor and is the principal author of The New Technical Trader (0-471-59780-5) (Wiley).

Day trading is difficult. The path is fraught with risk. But a pot of gold awaits those who learn their lessons well. After four decades in the markets as a trader, analyst, author, educator, and system developer, Jacob Bernstein sets down a comprehensive guide to the art of day trading. You will learn: New day trading methods Order entry strategies How to avoid costly errors when using electronic trading platforms Detailed strategies to maximize profits With this book, readers will have the complete guide they need to profit from this risky but exciting field. Trading profits are just a day away.

Take a proven approach to short-term trading. Winning the Day Trading Game offers an insider's view of the trading life and provides proven strategies for profitable trading. Professional trader Tom Busby explains how the strategies that made him so much money early on in his career ultimately failed during the 1987 stock market crash and then reveals how he reinvented himself as a high-percentage day trader. He interweaves personal experiences with technical explanations to outline the cornerstones of his technique. In highlighting his own trading experiences, Busby clearly explains how to beat the market by balancing the impulses of greed and fear, managing risk at all times; and taking responsibility for your trading. Thomas L. Busby (Mobile, AL) has been a professional trader and broker for 25 years, working with Merrill Lynch and Smith Barney. He founded the Day Trading Institute in 1996 and it has grown into one of the most successful trading schools in the world.

Trading forex is completely different from trading other markets. With low entry costs, 24-hour accessibility, global players and high degrees of leverage, there are enormous opportunities but also very real potential hazards along the way if you don't know what you're doing. Leverage can work both ways you control large positions, but small moves in your favor can mean big returns on your investment. For these reasons, forex trading deserves its own volume, devoted entirely to SFO (Stocks, Futures, Options) Magazine articles explaining the ins and outs of currency trading. Forex traders don't need to follow hundreds of stocks or commodities to get a flavor for the market just the movements of eight major currencies: the U.S. dollar, Japanese yen, European Union euro, British pound, Canadian dollar, Australian dollar, New Zealand dollar and Swiss franc. Trading a country's currency is like trading the outlook for the country, so it helps to have a bit of fundamental knowledge. But it's also a highly technical form of trading. This book helps you assess how to best synthesize your forex strategies to make the most of market movements. Learn from the top forex trading experts in the world. The key to trading currencies is figuring out what central banks will do before they actually make their moves.
