Accounting - Wikipedia
Financial statement, any report of the financial condition or of the financial results of the operations of a business, a government, or other organization. The term is most often used in a more limited sense in trade and financial circles to refer to the balance sheet, statement of income, and statement of retained earnings of a business. The balance sheet shows, as of a certain date, the amount and kinds of assets (properties) and liabilities (debts) and the owners' investment (excess of ...
