Environmental crime covers activities ranging from illegal logging, illegal trade in ozone depleting substances, dumping and illegal transport of hazardous wastes, to unreported fishing.

Environmental crime and corruption - GOV.UK

environmental crime and corruption, particularly on crimes such as illegal trade in ozone depleting substances and hazardous waste. The vast majority of literature in the field of environmental crime and corruption focuses on the forestry sector, namely illegal logging activities. Summary

Environmental crime and corruption

Corruption fuels all sorts of trafficking, tax evasion, money laundering, and the activities of militias and terrorist groups. As an organization working in the field of environmental crime and trafficking, we face corruption every day and we see corruption in every single trafficking case we investigate.

Environmental Crime: Corruption and Choke Points - Earth ...

Crimes like poaching, wildlife trafficking, illegal logging and pirate fishing pose serious threats to nature and people, damaging the environment and undermining local communities and economies. Although many laws designed to prevent environmental crime and protect natural resources already exist, some are inadequate or ineffective, and many suffer from a lack of proper enforcement .

Shining a light on environmental corruption | WWF

From EIA's perspective, corruption is a key enabling factor in environmental crime, especially the theft of natural resources. Research has shown that the more affected it is by corruption, the poorer a country's environmental performance - a theoretical link borne out by the findings of many EIA field investigations

How corruption is poisoning the global environment - EIA

Indeed, environmental crime often occurs hand in hand with other offences such as passport fraud, corruption, money laundering and even murder. Unlike the illegal trade in drugs and other illicit goods, natural resources are finite and cannot be replenished in a lab. As such, there is a sense of urgency to combat environmental crime.

Environmental crime - Interpol

While corruption is not environmentally destructive in a general sense (Robbins 2000) poor governance results in bad policy formulation, management, and enforcement, and this can become apparent through problems with environmental sustainability (Damania et al. 2003).

Ecology and Society: Is Corruption Bad for Environmental ...

Indeed, corruption as a tool for environmental crime—particularly used by organised criminal groups—has grown in recent years. Perpetrators are motivated by large profits that may be obtained from exploitation and illegal trade of natural resources.

CORRUPTION, ENVIRONMENT AND THE UNITED NATIONS CONVENTION ...

One such activity is environmental crime, in particular trafficking in wildlife and timber. The problem is particularly acute in developing countries, where Governments often lack the capacity to regulate the exploitation of their natural resources. Poor management of natural resources can lead to corruption and even violent conflict.

Environmental crime: trafficking in wildlife and timber

Environmental crime covers activities ranging from illegal logging, illegal trade in ozone depleting substances, dumping and illegal transport of hazardous wastes, to unreported fishing. It often includes a transnational dimension, which makes it highly profitable.

Environmental Crime and Corruption in Russia: Federal and ...

This book presents a wide ranging assessment of the environmental problems faced by Russia and of the crime and corruption which contribute to them. It also discusses the attitude of the Russian government which seems to view environmental protection as something for rich countries, something to be postponed until Russia is on the same economic footing as wealthier Scandinavian and western European countries.

Environmental Crime and Corruption in Russia eBook by ...

The Amazon, which stretches across nine Latin American countries, is a primary target for environmental crime in the region. Widespread corruption, at different stages and levels in the environmental sector, enables the commission of environmental crime in the region. Organized criminal groups in Latin America that have traditionally engaged in illegal drug trafficking are now increasingly getting involved in the most lucrative activities of environmental crime.
