real story of the Alamo, dispelling the myths, exploring why they had their day for so long, and explaining why the ugly fight about its meaning is now coming to a head. Every nation needs its creation myth, and since Texas was a nation before it was a state, it's no surprise that its myths bite deep. There's no piece of history more important to Texans than the Battle of the Alamo, when Davy Crockett and a band of rebels went down in a blaze of glory fighting for independence from Mexico, losing the battle but setting Texas up to win the war. However, that version of events, as Forget the Alamo definitively shows, owes more to fantasy than reality. Just as the site of the Alamo was left in ruins for decades, its story was forgotten and twisted over time, with the contributions of Tejanos--Texans of Mexican origin, who fought alongside the Anglo rebels--scrubbed from the record,

Mexico's push to abolish slavery papered over. Forget the Alamo provocatively explains the true story of the battle against the backdrop of Texas's struggle for independence, then shows how the sausage of myth got made in the Jim Crow South of the late nineteenth and early twentieth century. As uncomfortable as it may be to hear for some, celebrating the Alamo has long had an echo of celebrating whiteness. In the past forty-some years, waves of revisionists have come at this topic, and at times have made real progress toward a more nuanced and inclusive story that doesn't alienate anyone. But we are not living in one of those times; the fight over the Alamo's meaning has become more pitched than ever in the past few years, even violent, as Texas's future begins to look more and more different from its past. It's the perfect

But we are not living in one of those times; the fight over the Alamo's meaning has become more pitched than ever in the past few years, even violent, as Texas's future begins to look more and more different from its past. It's the perfect time for a wise and generous-spirited book that shines the bright light of the truth into a place that's gotten awfully dark.

In late February and early March of 1836, the Mexican Army under the command of General Antonio López de Santa Anna besieged a small force of Anglo and Tejano rebels at a mission known as the Alamo. The defenders of the Alamo were in an impossible situation. They knew very little of the events taking place

Acces PDF Forget The Alamo The Lone Star

outside the mission walls. They did not have much of an understanding of Santa Anna or of his government in Mexico City. They sent out contradictory messages, they received contradictory communications, they moved blindly and planned in the dark. And in the dark early morning of March 6, they died. In that brief, confusing, and deadly encounter, one of America's most potent symbols was born. The story of the last stand at the Alamo grew from a Texas rallying cry, to a national slogan, to a phenomenon of popular culture and presidential politics. Yet it has been a hotly contested symbol from the first. Questions remain about what really happened: Did William Travis really draw a line in the sand? Did Davy Crockett die fighting, surrounded by the bodies of two dozen of the enemy? And what of the participants' motives and purposes? Were the Texans justified in

Acces PDF Forget The Alamo The Lone Star

their rebellion? Were they sincere patriots making a last stand for freedom and liberty, or were they a ragtag collection of greedy men-on-the-make, washed-up politicians, and backwoods bullies, Americans bent on extending American slavery into a foreign land? The full story of the Alamo -- from the weeks and months that led up to the fateful encounter to the movies and speeches that continue to remember it today -- is a quintessential story of America's past and a fascinating window into our collective memory. In *A Line in the Sand*, acclaimed historians Randy Roberts and James Olson use a wealth of archival sources, including the diary of José Enrique de la Peña, along with important and little-used Mexican documents, to retell the story of the Alamo for a new generation of Americans. They explain what happened from the perspective of all parties, not just Anglo

Acces PDF Forget The Alamo The Lone Star

and Mexican soldiers, but also Tejano allies and bystanders. They delve anew into the mysteries of Crockett's final hours and Travis's famous rhetoric. Finally, they show how preservationists, television and movie producers, historians, and politicians have become the Alamo's major interpreters. Walt Disney, John Wayne, and scores of journalists and cultural critics have used the Alamo to contest the very meaning of America, and thereby helped us all to "remember the Alamo."

The story of Texas is the story of struggle and triumph in a land of extremes. It is a story of drought and flood, invasion and war, boom and bust, and of the myriad peoples who, over centuries of conflict, gave rise to a place that has helped shape the identity of the United States and the destiny of the world. "I couldn't believe

Acces PDF Forget The Alamo The Lone Star

Texas was real,” the painter Georgia O’Keeffe remembered of her first encounter with the Lone Star State. It was, for her, “the same big wonderful thing that oceans and the highest mountains are.” Big Wonderful Thing invites us to walk in the footsteps of ancient as well as modern people along the path of Texas’s evolution. Blending action and atmosphere with impeccable research, New York Times best-selling author Stephen Harrigan brings to life with novelistic immediacy the generations of driven men and women who shaped Texas, including Spanish explorers, American filibusters, Comanche warriors, wildcatters, Tejano activists, and spellbinding artists—all of them taking their part in the creation of a place that became not just a nation, not just a state, but an indelible idea. Written in fast-paced prose, rich with personal observation and a passionate sense of

Acces PDF Forget The Alamo The Lone Star

place, Big Wonderful Thing calls to mind the literary spirit of Robert Hughes writing about Australia or Shelby Foote about the Civil War. Like those volumes it is a big book about a big subject, a book that dares to tell the whole glorious, gruesome, epically sprawling story of Texas.

For John Nance “Cactus Jack” Garner, there was one simple rule in politics: “You’ve got to bloody your knuckles.” It’s a maxim that applies in so many ways to the state of Texas, where the struggle for power has often unfolded through underhanded politicking, backroom dealings, and, quite literally, bloodshed. The contentious history of Texas politics has been shaped by dangerous and often violent events, and been formed not just in the halls of power but by marginalized voices omitted from the official narratives. A Single Star and Bloody Knuckles traces

Acces PDF Forget The Alamo The Lone Star

the state's conflicted and dramatic

evolution over the past 150 years through its pivotal political players, including oft-neglected women and people of color.

Beginning in 1870 with the birth of Texas's modern political framework, Bill Minutaglio chronicles Texas political life against the backdrop of industry, the economy, and race relations, recasting the narrative of influential Texans. With journalistic verve and candor, Minutaglio delivers a contemporary history of the determined men and women who fought for their particular visions of Texas and helped define the state as a potent force in national affairs.

A fascinating collection of oral history interviews details Texas in the early twentieth century and how life in the Lone Star State helped the interviewees achieve success.

In Sleuthing the Alamo, historian James E. Crisp draws back the curtain on years of mythmaking to reveal some surprising truths about the Texas Revolution--truths often obscured by both racism and "political correctness," as history has been hijacked by combatants in the culture wars of the past two centuries. Beginning with a very personal prologue recalling both the pride and the prejudices that he encountered in the Texas of his youth, Crisp traces his path to the discovery of documents distorted, censored, and ignored--documents which reveal long-silenced voices from the Texan past. In each of four chapters focusing on specific documentary "finds," Crisp uncovers the clues that led to these archival discoveries. Along the way, the cast of characters expands to include: a prominent historian who tried to walk away from his first

book; an unlikely teenaged "speechwriter" for General Sam Houston; three eyewitnesses to the death of Davy Crockett at the Alamo; a desperate inmate of Mexico City's Inquisition Prison, whose scribbled memoir of the war in Texas is now listed in the Guinness Book of World Records; and the stealthy slasher of the most famous historical painting in Texas. In his afterword, Crisp explores the evidence behind the mythic "Yellow Rose of Texas" and examines some of the powerful forces at work in silencing the very voices from the past that we most need to hear today. Here then is an engaging first-person account of historical detective work, illuminating the methods of the serious historian--and the motives of those who prefer glorious myth to unflattering truth.

All Americans, not just Texans, remember

Rebelled Series Book 4

the Alamo. But the siege and brief battle at that abandoned church in February and March 1836 were just one chapter in a much larger story -- larger even than the seven months of armed struggle that surrounded it. Indeed, three separate revolutionary traditions stretching back nearly a century came together in Texas in the 1830s in one of the great struggles of American history and the last great revolution of the hemisphere. Anglos steeped in 1776 fervor and the American revolution came seeking land, Hispanic and native Americans joined the explosion of republican uprisings in Mexico and Latin America, and the native tejanos seized on a chance for independence. As William C. Davis brilliantly depicts in *Lone Star Rising*, the result was an epic clash filled not just with heroism but also with ignominy, greed, and petty and grand politics. In *Lone Star Rising*, Davis deftly

Acces PDF Forget The Alamo The Lone Star

combines the latest scholarship on the military battles of the revolution, including research in seldom used Mexican archives, with an absorbing examination of the politics on all sides. His stirring narrative features a rich cast of characters that includes such familiar names as Stephen Austin, Sam Houston, and Antonio Santa Anna, along with tejano leader Juan Seguín and behind-the-scenes players like Andrew Jackson. From the earliest adventures of freebooters, who stirred up trouble for Spain, Mexico, and the United States, to the crucial showdown at the San Jacinto River between Houston and Santa Anna there were massacres, misunderstandings, miscalculations, and many heroic men. The rules of war are rarely stable and they were in danger of complete disintegration at times in Texas. The Mexican army often massacred its Anglo prisoners, and the Anglos retaliated

Acces PDF Forget The Alamo The Lone Star

Released Series Book 4

when they had the chance after the battle of San Jacinto. The rules of politics, however, proved remarkably stable: The American soldiers were democrats who had a hard time sustaining campaigns if they didn't agree to them, and their leaders were as given to maneuvering and infighting as they were to the larger struggle. Yet in the end Lone Star Rising is not a myth-destroying history as much as an enlarging one, the full story behind the slogans of the Alamo and of Texas lore, a human drama in which the forces of independence, republicanism, and economics were made manifest in an unforgettable group of men and women.

“Gail Collins is the funniest serious political commentator in America. Reading *As Texas Goes...* is pure pleasure from page one.” —Rachel Maddow *As Texas Goes . . .* provides a trenchant yet

Acces PDF Forget The Alamo The Lone Star

often hilarious look into American politics and the disproportional influence of Texas, which has become the model for not just the Tea Party but also the Republican Party. Now with an expanded introduction and a new concluding chapter that will assess the influence of the Texas way of thinking on the 2012 election, Collins shows how the presidential race devolved into a clash between the so-called “empty places” and the crowded places that became a central theme in her book. The expanded edition will also feature more examples of the Texas style, such as Governor Rick Perry’s nearsighted refusal to accept federal Medicaid funding as well as the proposed ban on teaching “critical thinking” in the classroom. As Texas Goes . . . will prove to be even more relevant to American politics by the dawn of a new political era in January 2013.
