Introducing Second Language Acquisition: Perspectives and Practices represents a clear and concise introduction to the main concepts, issues, and debates in second language acquisition studies, aimed specifically at students encountering the topic for the first time. This textbook combines a full range of engaging pedagogical features and comprehensive coverage, with an accessible and lighthearted approach which will appeal to students.

## ~~Introducing Second Language Acquisition: Perspectives and ...~~

The main purpose of theories of second-language acquisition is to shed light on how people who already know one language learn a second language. The field of second-language acquisition involves various contributions, such as linguistics, sociolinguistics, psychology, cognitive science, neuroscience, and education. These multiple fields in second-language acquisition can be grouped as four major research strands: linguistic dimensions of SLA, cognitive dimensions of SLA, socio-cultural dimensio
