secure manner. It uses the tried, trusted and proven techniques of neuro-linguistic programming to help tackle areas in which you feel you lack confidence as a parent, while at the same time giving you the skills to help your child be happy, fulfilled and confident themselves. You will find yourself feeling less guilty, more in control, and communicating better with your child - at the same time you will be able to support your child in difficult situations and help them grow into a well-rounded adult.

Neurolinguistic programming (NLP) involves a range of psychological techniques that help you to 'reprogram' your brain – replacing the negative attitudes that hold you back with positive thought patterns that will enable you to be more effective, confident and successful. In just under 20 simple steps, Neil Shah shows you how to use NLP to develop new habits of behaviour and thought that will help you succeed in all areas of life, from influencing others and understanding how they influence you, to achieving your goals, to managing stress.

Parenting is not an idea, concept or belief. It's a process and therefore is neither static nor fixed in time that results in something special being created. The Parents' Handbook provides you with tools, techniques, insights and approaches to improve the way you communicate, to be available emotionally and physically and to successfully fulfill the different roles expected of you as a parent.

Here is a practical and clearly written guide to the use of Neuro-Linguistic Programming in the treatment of alcoholism and other addictions. This comprehensive volume illustrates how the focus of Neuro-Linguistic Programming (NLP) on the individual and the family increases the effectiveness of counseling by targeting the uniqueness of each individual and his or her family system. Professionals will also learn how NLP facilitates effective interventions and helps alcoholics create internal coping skills to begin and maintain the recovery process. Neuro-Linguistic Programming in Alcoholism Treatment is a wealth of innovative, state-of-the-art information on the history of NLP, basic NLP assumptions, concepts for establishing rapport with clients, and essential family participation in NLP. Each chapter directs itself either to a specific NLP technique, featuring clear case demonstrations and a step-by-step outline for applying the technique to the development of the counseling process in working with addicted systems, or to a particular group affected by addiction, such as alcoholics, children of alcoholics, or the addicted family as a unit. Clinicians focus on alcoholism and other addictions as treatable conditions, applying specific strategies and techniques--initially developed in Neuro-Linguistic Programming and Hypnotherapy--adapted to meet the demands of alcoholism and addiction treatment specialists. This important volume allows for a substantial increase in the repertoire of treatment choices available to professionals and enables clinicians to individualize treatment. An extensive bibliography is included to further assist readers in gaining additional skills in the treatment of alcoholics and other addicts.
