The defining principle of geology is Uniformitarianism. This states that by viewing modern processes we can determine what happened in the past. James Hutton was the first geologist to publish this postulation with his paper "The Theory of the Earth", published in 1785 and has resulted in him being viewed as the first modern geologist.

Target success in OCR GCSE (9-1) Geography B with this proven formula for effective, structured revision; key content coverage is combined with exam-style tasks and practical tips to create a revision guide that students can rely on to review, strengthen and test their knowledge.
