Organizational Physics feels like a condensed version of Dr Adizes' Managing Corporate Lifecycles. Which we later found out makes sense, since Sisney was a pupil of Adizes. In some ways, Organizational Physics conveys the ideas better, like energy and how each management styles fits into the functions of an org, but in other cases not so much, like the actual lifecycles of a company.

Physics is the basic physical science. Until rather recent times physics and natural philosophy were used interchangeably for the science whose aim is the discovery and formulation of the fundamental laws of nature. As the modern sciences developed and became increasingly specialized, physics came to denote that part of physical science not included in astronomy, chemistry, geology, and ...
