The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

Wallpaper\* City Guides are a ruthlessly-researched, design-conscious guide, for the discerning traveller who wants to come away with a true taste of the best a city has to offer.

A woman and her husband rent a summer house, but what should be a restful getaway turns into a suffocating psychological battle. This chilling account of postpartum depression and a husband's controlling behavior in the guise of treatment will leave you breathless. 2018 Reprint of 1892 Edition. This short story is regarded as an important early work of American feminist literature, illustrating attitudes in the 19th century toward women's health, both physical and mental. Presented in the first person, the story is a collection of journal entries written by a woman whose physician husband (John) has rented an old mansion for the summer. Forgoing other rooms in the house, the couple moves into the upstairs nursery. As a form of treatment, the unnamed woman is forbidden from working, and is encouraged to eat well and get plenty of exercise and air, so she can recuperate from what he calls a "temporary nervous depression - a slight hysterical tendency", a diagnosis common to women in that period. Gilman used her writing to explore the role of women in America at the time. She explored issues such as the lack of a life outside the home and the oppressive forces of the patriarchal society. Through her work Gilman paved the way for writers such as Alice Walker and Sylvia Plath. Written with barely controlled fury after she was confined to her room for 'nerves' and forbidden to write, Gilman's pioneering feminist horror story scandalized nineteenth-century readers with its portrayal of a woman who loses her mind because she has literally nothing to do.
