Here is an introduction to the whole cult of the dune buggy, from its earliest beginnings as a crude off-road vehicle in the 1920s, to the explosion of glassfibre-bodied and VW-based fun cars that became the cult transport of teenagers everywhere in the 1960s and 1970s. With histories, production details, dates and identification tips for over 70 US and UK buggies, this book will help identify the many marques that have been produced over the years. Using period photographs

Automakers are as prone to turn out clunkers as politicians are to lie. Their cars may be ugly, misconceived, badly built, diabolical to drive, ridiculously thirsty, or just plain unreliable. So which were the worst of the past 20 years?

Nigel Bennett 's unique autobiography describes his life and career, from growing-up influenced by car design, to his education and the building of his 750 specials. He describes his work as Firestone Development Manager, recounting many tales of the outstanding designers and drivers of the period. Detailing his work in Formula 1, as a Team Lotus engineer, and then as Team Ensign designer, he also covers his Indycar designs at Theodore, Lola Cars and Penske Cars. Life after his retirement, his involvement in boat design and with modern F1 teams, are also recounted.

Accompanied by 150 photographs, many previously unpublished, plus a look at Graham's subsequent career as a fighter aircraft expert and restorer, this is a unique story of a fascinating life in motorsport.

This is a story of excitement, laughs, astonishment and anger - a story of the determination of a man with a dream and a passion for motor racing in the big leagues. A biography of motor racing mechanic Tony Robinson, who worked with some of the great names of the sport in the 1950s and '60s.

After saving Alfa Romeo from oblivion in 1987, it took Fiat nearly five years to debut the first new Alfa produced under its control. This is the story of how the competition versions of the 155/156/147 family of cars were developed and subsequently raced to many championship titles and race wins. Alfa Romeo's 155 saloon was a comprehensively successful racing touring car that won the German and world-wide DTM Championship, and later ITC races. The model also took on the role of representing the company in national touring car championships throughout the world, most notably winning the British Touring Car Championship in 1994. The 156 was Alfa's successor to the 155 and was also raced with much success. This book follows the development and competition history of this model too, along with its sibling, the 147. Together, these models kept the Alfa Romeo name at the pinnacle of motor sport for many years, from 1992 to 2006, and will become future motorsport classics.
