### Teaching Tolerance | Diversity, Equity And Justice

Teaching Strategies to Help Ease the Strain on Mixed Ability Classrooms. Integrated classrooms can be a challenge for students and teachers alike.

Offers over one hundred strategies for students with disabilities that have been developed and tested by teachers.

Many students arrive at school with unique mixtures of family histories, traumatic experiences, and special needs that test our skills and try our patience. In Hanging In: Strategies for Teaching the Students Who Challenge Us Most, veteran educator Jeffrey Benson shows educators the value of tenacity and building connections in teaching the students who most need our help. This essential guide includes \* Detailed portraits based on real-life students whose serious challenges inhibited their classroom experience--and how they eventually achieved success; \* Strategies for how to analyze students' challenges and develop individualized plans to help them discover a sense of comfort with learning--with in-depth examples of plans in action; \* Recommendations for teachers and support team on how to gain skills and support and not lose hope through the ups and downs of the work; and \* Specific advice for administrators on constructing systems and procedures that give all our students the best chance for success. Just as teaching the students who challenge us is among our most frustrating experiences as educators, sticking with students until they finally "get it" is among our most rewarding. In Hanging In, you'll find the inspiration and field-tested ideas necessary to create a patient and supportive environment for even the most demanding cases in the classroom.

METHODS AND STRATEGIES FOR TEACHING STUDENTS WITH MILD DISABILITIES: A Case-Based Approach. International edition uses case studies and application activities for a more focused and integrated approach to teaching K-12 special education teaching methods. The case study approach is a distinctive feature of this programwith both text case studies and video case studies in each chapter. The text provides a special emphasis on teaching children with mild to moderate disabilities such as ADHD, learning disabilities, mild mental retardation, and emotional/behavioral disorders.

Reading Connections: Strategies for Teaching Students with Visual Impairments offers an in-depth and user-friendly guide for understanding reading instruction for teachers and professionals seeking to improve the reading skills of their students who are visually impaired. The book addresses in detail the essential components of reading--phonemic awareness, phonics, reading fluency, vocabulary, and reading comprehension--as well as other key reading components and subskills. While this book addresses the needs of students who read print, braille, or both, much of the book is also consistent with strategies for teaching reading to students who have, or are at risk for, developing reading disabilities. Teachers of students with visual impairments, as well as family members and other professionals who work with children who are blind or visually impaired, will find within this book a repertoire of strategies and activities for creating a balanced, comprehensive plan of reading instruction for each student and for teaching the essential reading skills necessary for students' success.

This practical guidebook gives elementary school teachers explicit instructions on how students with learning disabilities can dramatically improve their writing skills.

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Combining the best of concept and application, Strategies for Teaching Students in Inclusive Classrooms: A Case Method Approach covers teaching methods and cases from inclusive education settings. Offering an innovative chapter sequence, it pairs concept chapters with case chapters to ensure readers understand core material and can apply it to real situations. Learn about special education law and inclusion, teaching in the inclusive classroom, effective use of behavior management in inclusive classrooms and effective techniques for teaching basic skills such as reading, writing, and mathematics. See how strategies work in real classrooms through the text's clinical and narrative case studies that illustrate core concepts in action.

Although an abundance of research exists on working with students with autism, teachers need the practical strategies in Success Strategies for Teaching Kids With Autism to build successful programs and services for kids with autism.

Sharon Vaughn listed as first author on earlier eds.

Teaching Gradually is a guide for anyone new to teaching and learning in higher education. Written for graduate student instructors, by graduate students with substantive teaching experience, this resource is among the first of its kind to speak to graduate students as comrades-in-arms with voices from alongside them in the trenches, rather than from far behind the lines. Each author featured in this book was a graduate student at the time they wrote their contribution. Consequently, the following chapters give scope to a newer, diverse generation of educators who are closer in experience and professional age to the book's intended audience. The tools, methods, and ideas discussed here are ones that the authors have found most useful in teaching today's students. Each chapter offers a variety of strategies for successful classroom practices that are often not explicitly covered in graduate training. Overall, this book consists of 42 chapters written by 51 authors who speak from a vast array of backgrounds and viewpoints, and who represent a broad spectrum of experience spanning small, large, public, and private institutions of higher education. Each chapter offers targeted advice that speaks to the learning curve inherent to early-career teaching, while presenting tangible strategies that readers can leverage to address the dynamic professional landscape they inhabit. The contributors' stories and reflections provide the context to build the reader's confidence in trying new approaches in their his or her teaching. This book covers a wide range of topics designed to appeal to graduate student instructors across disciplines, from those teaching discussion sections, to those managing studio classes and lab sessions, to those serving as the instructor of record for their own course. Despite the medley of content, two common threads run throughout this volume: a strong focus on diversity and inclusion, and an acknowledgment of the increasing shift to online teaching. As a result of engaging with Teaching Gradually, readers will be able to: Identify best teaching practices to enhance student learning Develop a plan to implement these strategies in their teaching Expand their conception of contexts in which teaching and learning can take place Evaluate and refine their approaches to fostering inclusion in and out of the classroom Assess student learning and the efficacy of their own teaching practices Practice professional self-reflection
