Black Hawk Songs is a 30 poem sequence about the famous chief of the Sauk and Fox tribe. They examine Black Hawk's transformation from boy to warrior to chief to defeated, embittered old man. They probe the conflicts he faced along the way: man against man, man against nature, man against himself. The poems are about the battles he waged, his relationship with the white man and with members of his tribe, his vision of himself. In a larger sense the poems are about the Indian experience in America-- they tell a story of lost lands, of men broken, of tribes decimated. As critic and poet Laurence Lieberman has commented, "it is a very painful book to read, since so much of it is a severe indictment of the white American culture." "Passionately unafraid renderings of a collective past in that energized language Borich manages to control so well as a spiritualizer of the word." -- Michael S. Harper, poet "In this themes which range from violence to intense feelings for humanity, Michael Borich evokes brilliant images of a past America. His obvious kinship with the world of Nature allies him with the spirit of the American Indian." -- Dee Brown, author of Bury My Heart at Wounded Knee "The constructions are striking, active, engrossing." -- Library Journal "Borich's poetry is powerful and effective in portraying a certain vision of the past." -- Poet & Critic "The poetry's great drive, their inner coherence, above all their urgent restoration of an almost-lost past make this one of the most impressive first books I've read in a long time." -- John Unterecker, poet and critic "He had forced into words anguish in loss, courage in the face of defeat, honesty in the face of deceit and an abounding affirmation of origins." -- Books Abroad "When Borich is writing of the Indian experience he is capable of a weird clarity and freshness of perception." -- Parnassus, Poetry in Review "Profoundly uplifting, for the rage and indignation is balanced by a gentleness of spirit and a profound reverence for life. There is much radiant spirit in these poems. Borich has achieved a totally effective poetic style and a distinctive voice. The consistent high level of craft and technical discipline is simply amazing in a first volume of poetry." --Laurence Lieberman, poet and critic "The poems are brilliant! Marvelous!" -- Susan Wooldridge, author of poemcrazy: freeing your life with words

After a majestic fanfare, a soaring melodic line appears, reminiscent of the flight of a hawk. With limitless freedom, the winged creature is master of all it surveys. The presence of the wind can be detected throughout as it carries our musical subject to new heights. A major new work by one of our generation's most successful composers. (5: 55)

Autobiography of early 19th century leader of the Sauk and Fox Indians. Describes tribal customs, traditions, Indian wars, more.

In 1832, facing white expansion, the Sauk warrior Black Hawk attempted to forge a pan-Indian alliance to preserve the homelands of the confederated Sauk and Fox tribes on the eastern bank of the Mississippi. Here, Patrick J. Jung re-examines the causes, course, and consequences of the ensuing war with the United States, a conflict that decimated Black Hawk's band. Correcting mistakes that plagued previous histories, and drawing on recent ethnohistorical interpretations, Jung shows that the outcome can be understood only by discussing the complexity of intertribal rivalry, military ineptitude, and racial dynamics.

Black Hawk, so named after the sacred medicine bag he carried with him, was a warrior and a leader of a tribe of Sauk Native Americans in the American Midwest circa 1800. He rose to leadership during a tumultuous time for his people, as they were pressed on all sides by the warlike British, the ruthlessly expansionist Americans, and the grudges and jealousies of neighboring tribes. He lived as a warrior for much of his early life, when the War of 1812 between the British and the Americans forced the Sauk to take sides and enter the fray. Angered by the Americans' demands they sign shaky treaties to cede their land, the tribe fought for the British until the toll of the war forced the tribe to bow out. After the war, Black Hawk signed a peace treaty with the Americans, but a series of misunderstandings once again brought tensions between the Sauk and the Americans to a head. When a group of under-trained Illinois militia mistakenly opened fire on the Sauk, Black Hawk began what is known as the Black Hawk War, leading raids against American forts and settlements in an effort to reclaim their ancient land. Even though Black Hawk managed to convince other tribes to join his cause, the war was quickly lost and Black Hawk captured. He was then taken on a tour of the vast East Coast cities in an attempt to impress upon him America's overwhelming might. Despite his status as a former enemy, he was treated with dignity and respect by his captors before they granted him a small house and plot of land in Iowa to live out the rest of his days. His autobiography was dictated to a translator, Antoine Le Clair, and written down by his amanuensis and publisher, J. B. Patterson. The story Black Hawk tells is a vivid one of life on the prairie, rich with tradition and meaning, but riven equally by war and bloodshed. As he reminisces about the bucolic life he and his ancestors once led and compares it with the hardships his people are facing, his sorrow becomes palpable; and as his days draw to a close, the reader sees that even to Black Hawk, the fate of his people appears inevitable.
