The Customer-Funded Business expertly argues that the best and usually shortest path to developing that killer product is by getting customers to pay for it. By following the precepts of John's book, and financing a business primarily from customers willing to be early adopters, entrepreneurs will have a much clearer and more persuasive blueprint about how to build the business, and therefore have a far easier time raising venture capital (and incur less dilution, too)."

the venture capital community - VCs, business angels, incubators and others - convinced the entrepreneurial world that writing business plans and raising venture capital constituted the twin centerpieces of entrepreneurial endeavor. They did so for good reasons: the sometimes astonishing returns they've delivered to their investors and the astonishingly large companies that their ecosystem has created.
