The rood screen (also choir screen, chancel screen, or jubé) is a common feature in late medieval church architecture.It is typically an ornate partition between the chancel and nave, of more or less open tracery constructed of wood, stone, or wrought iron.The rood screen would originally have been surmounted by a rood loft carrying the Great Rood, a sculptural representation of the Crucifixion.

Rood screen - *Wikipedia*

The richly illustrated book is the first major study of the church screens of the southern Welsh Marches. The chapters examine the church screen in all its manifestations from its origin in pre-Christian times to the Reformation in the 16th century, and beyond. The second part of the book opens with the turbulent history of the March, against which background the screenwork of the region is examined: patterns of provenance and influence are charted, common workshops identified and aesthetic ...

The Medieval Church Screens of the Southern Marches ...

The churches of medieval Europe contained richly carved and painted screens, placed between the altar and the congregation; they survive in particularly high numbers in England, despite being partly dismantled during the Reformation.

The Medieval Church Screens of the Southern Marches ...

The chancel thus became the sacrament chamber. In the medieval church the parish mass had been sung by the priest at the high altar in the chancel whilst the people gathered in the nave on the west side of the screen. Incidentally, this is an arrangement very familiar to most older Anglicans since the Victorians restored it in the 19c.
