Certi amori sembrano distanti anni luce. Eppure a volte sono i più importanti, gli unici che contino davvero per noi: quelli che fanno nascere l'universo in cui viviamo. Cecilia e Claudio, medici nello stesso ospedale, imparano a parlarsi e a desiderarsi in un tempo cadenzato dalla ritualità dei pranzi, dall'infittirsi di conversazioni e confidenze, da un'attrazione reciproca che, per quanto intensa, non riesce a manifestarsi, come una costellazione non ancora tracciata. Ma a vederla da fuori la loro storia è visibilissima: visibili le cautele che li allontanano – sono un uomo e una donna che vengono da convivenze esaurite e tuttavia non spente, lei accesa da una tormentata maturità di madre, lui protetto da una polvere di timide certezze –, visibile l'amore che li unisce. È proprio allora che al loro tavolo siede un giorno la sorella di Cecilia, l'estroversa e generosa Silvia. In un gioco sempre più accelerato di rivelazioni e rincorse, Claudio, Cecilia e Silvia finiscono con l'abitare un triangolo singolare. E da lì in poi è come se l'amore cercasse un'altra strada, e questa strada s'aprisse il varco fra le scorie del passato, verso l'imprevedibile disegno di un nuovo universo affettivo.

Chi era Carlos Wieder? Un poeta o un assassino? Un artista o un criminale? Un pilota spericolato che si esibiva in performance di «scrittura aerea» o un autore di snuff movies? E ha veramente arrestato e torturato e ucciso, nei mesi successivi al golpe di Pinochet, decine di persone, per poi esporre le foto dei cadaveri ridotti a brandelli perché convinto della assoluta, gratuita purezza del male – perché solo il dolore è in grado di rivelare la vita, e lo scopo della sua era «l'esplorazione dei limiti»? Nulla, sembra ribadire Bolaño, è più sfuggente della verità. Tant'è che, una

pagina dopo l'altra, un tassello dopo l'altro – attraverso un accumulo di indizi, molti dei quali di natura squisitamente letteraria, e di storie parallele, alcune tragiche, alcune grottesche, alcune paradossalmente fiabesche (ma tutte, sempre, eccessive, «come lo era il Cile di quegli anni») –, il nostro percorso di avvicinamento a quella che potrebbe essere la verità diventa via via più sdrucchiolevole, come se l'autore medesimo ci invitasse a dubitare degli eventi che narra non meno che degli scrittori che cita, delle poesie, delle riviste, dei movimenti letterari a cui allude. Nonché, in definitiva, dell'esistenza stessa di un uomo chiamato Carlos Wieder.

"The early settlers dubbed California The Golden State, and The Land of Milk and Honey. Today there are the obvious ironies -- sprawl, spaghetti junctions and skid row--but the place is not so easily distilled or visualized, either as a clichéd paradise or as its demise. There's a strange kind of harmony when it's all seen together--the sublime, the psychedelic, the self-destructive. Like all places, it's unpredictable and contradictory, but to greater extremes. Cultures and histories coexist, the beautiful sits next to the ugly, the redemptive next to the despairing, and all under a strange and singular light, as transcendent as it is harsh. The pictures in this book begin in the desert east of Los Angeles and move west through the city,

ending at the Pacific. This general westward movement alludes to a thirst for water, as well as the original expansion of America, which was born in the East and which hungrily drove itself West until reaching the Pacific, thereby fulfilling its "manifest" destiny."

First English translation of Sini's important work on the influence of writing and the alphabet on Western rationality.

Bold and ruthless, he was famed throughout the System as a big-game hunter. From the firebrakes of Mercury to the ice-crawlers of Pluto, he'd slain them all. But his trophy-room lacked one item; and now Riordan swore he'd bag the forbidden game that roamed the red deserts . . . a Martian!

The political control of music in the Third Reich has been analysed from several perspectives, and with ever increasing sophistication. However, music in Germany after 1945 has not received anything like the same treatment. Rather, there is an assumption that two separate musical cultures emerged in East and West alongside the division of Germany into two states with differing economic and political systems. There is a widely accepted view of music in West Germany as 'free', and in the East subject to party control. Toby Thacker challenges these assumptions, asking how and why music was controlled in Germany under Allied Occupation from 1945-1949, and in the early years of 'semi-sovereignty' between 1949 and 1955. The 're-education' of Germany after the Hitler years was a unique historical experiment and the place of music within this is explored here for the first time. While emphasizing political, economic and broader social structures that influenced the production and reception of different musical forms, the book is informed by a sense of human agency, and explores the role of salient individuals in the reconstruction of music in post-war Germany. The focus is not restricted to any one kind of music, but concentrates on those aspects of music, professional and amateur, live and recorded, which appeared to be the mostly highly charged politically to contemporaries.

Particular attention is given to 'denazification' and to the introduction of international music. Thacker traces the development of a divide between Communist and liberal-democratic understandings of the place of music in society. The contested celebrations of the Bach Year in 1950 are used to highlight the role of music in the broader cultural confrontation between East and West. Thacker examines the ways in which central governments in East and West Germany sought to control and influence music through mechanisms of censorship and positive support. The book will therefore be of interest not only
